DETAILED ACTION

Claims 1-7 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 16-20, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on November 14, 2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The declaration under 37 CFR 1.132 filed October 8, 2010 is sufficient to overcome the rejection of claim 1 under 35 U.S.C. 112, first paragraph, written description.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with G. Huckett, Ph.D. on November 19, 2010.

The application has been amended as follows:

In the claims:

Please cancel claims 8-15.

The following is an examiner's statement of reasons for allowance: claims 1-7, 16-20 are drawn to a protein crystalloid body (forisome) isolated from Fabaceae, wherein said forisome comprises a first protein and a second protein and wherein, when the first and second proteins are digested by trypsin, a peptide depicted by instant SEQ ID NO: 2 is found, and to methods of isolating and using said forisome. A search of the prior art reveals that the instant claims are novel. Further, the prior art does not suggest the invention as claimed and therefore said invention is non-obvious.

Claims 1-7, 16-20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marsha M. Tsay whose telephone number is (571)272-2938. The examiner can normally be reached on M-F, 9:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Manjunath N. Rao can be reached on 571-272-0939. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
